1. In addition to the slotting problems outlined in the reference memorandum a slotting problem also exists in regard to [REDACTED]. The Medical Staff has been providing a headquarters technician on a TDY basis to [REDACTED] for the past two years.

2. JMWAVE has been advised that a WAVE slot is necessary so that the Medical Staff can use its headquarters personnel for the purpose intended (DIR 12907). JMWAVE in return has indicated that no slot is possible but that medical support is necessary (IN 57046).

We have agreed to provide a technician as before while negotiations continue in an attempt to resolve the slotting problem.

It is requested that the Medical Staff Table of Organization be increased by one position with appropriate increase in funds to accommodate the [REDACTED] requirement; or that one or both of the alternatives submitted in the reference memorandum be adopted to permit redeployment of capabilities.
